Weed Management Workshop

Successful weed control requires accurate early identification along with timely management decision-making. UW-Division of Extension is offering four weed management workshops throughout southwest WI.

Workshop highlights include:

- Live plant samples
- Weed ID discussion
- Weed ID materials
- Updates on 'new' species

Please consider joining the discussion and dusting off your agronomy skills ahead of the 2023 growing season!

Meeting locations:

Dodgeville- 3/21 (2-3PM)

<u>Health and Human Services</u>

<u>Building</u>
